

I set out below the information which we have put on the Burghley Park Golf Club website about the arrangements for the 1890 Club reciprocal procedures, which is club-specific and as agreed between us all. I suggest that each of us use this as a model for our own websites. Using the example below, the arrangements required for visitors to Charnwood Forest GC would be applied by Burghley Park for any of their members coming to Burghley; the different arrangements required by Conwy would be applied by Burghley to any Conwy members coming to Burghley, and so on.

Just to be clear, those clubs which are offering courtesy of the course do this on the basis that the club from which visitors come does the same. If the visitors home club charges some form of reduced green fee, the receiving club will do likewise.
