Traffic Management Plan Buggy Use

The aim of this document is to review the following issues:

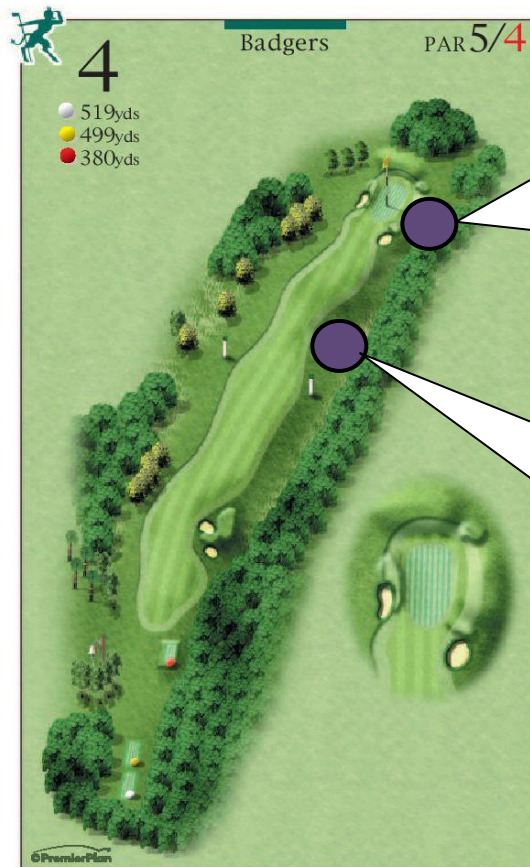

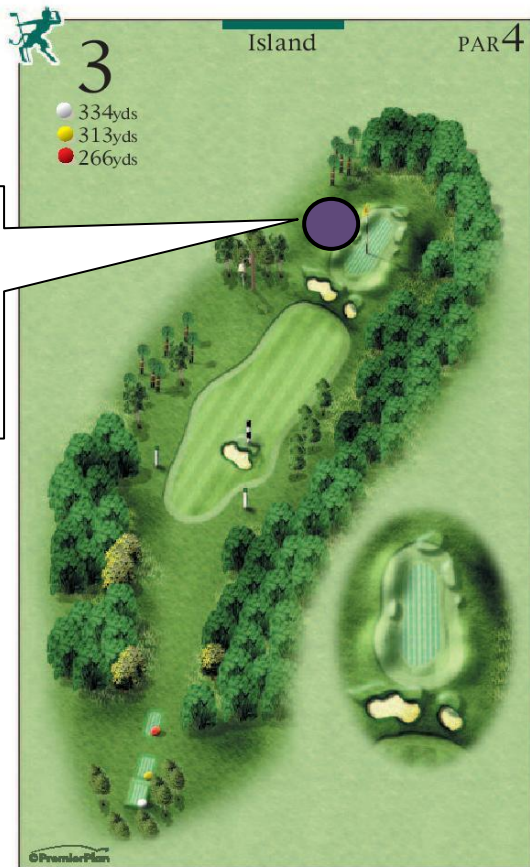

- Traffic Management Plan

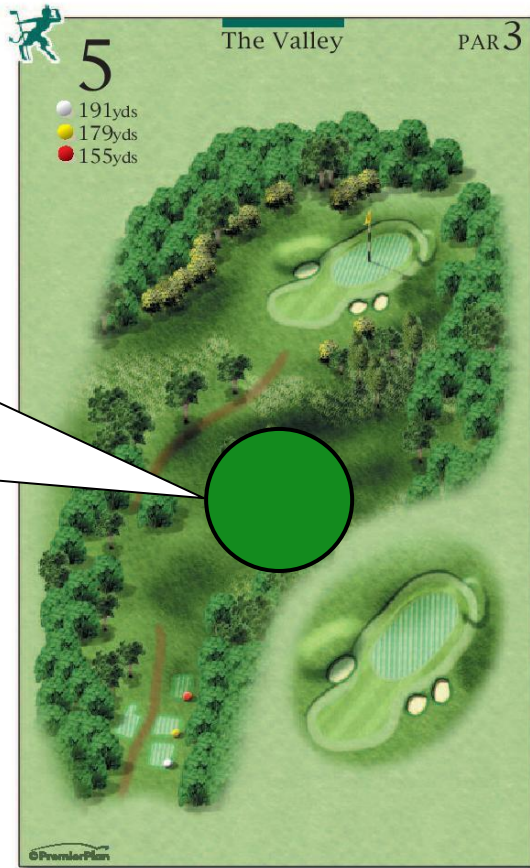

This document is to be used in conjunction with the Buggy User Guide, Health & Safety Risk Assessment Specific for Buggy Use (To include Damage Risk Assessment), Disabled Buggy Risk Assessment and the overall Health and Safety Document for the course.

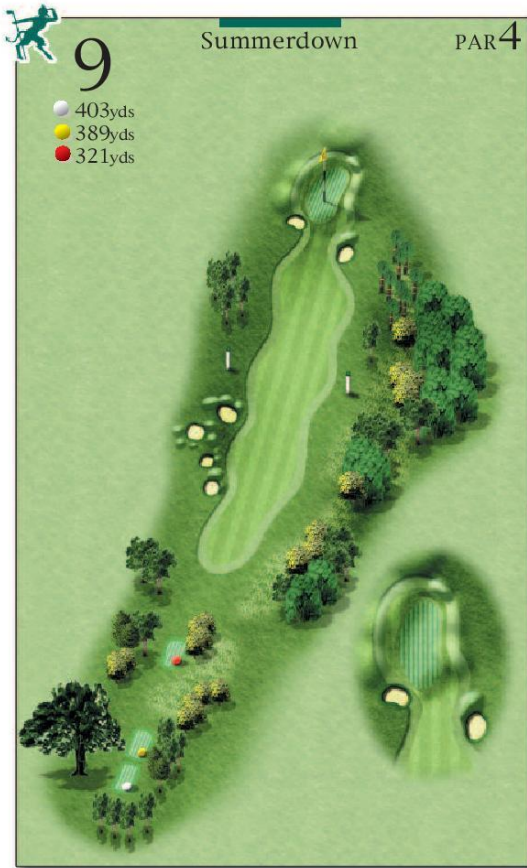

Key

Traffic Management Plan

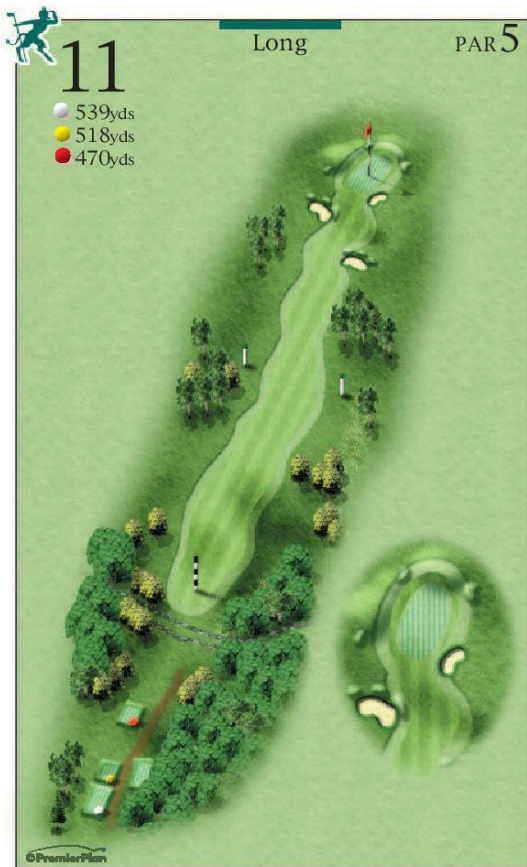

-  **Level One** - Wear & Tear Buggy Use. Do not take your buggy in this area. This area will cause significant damage to the course in winter months.
-  **Level Two** – Wear & Tear Buggy Use. This area is prone to becoming very wet in the winter months. Please be careful when driving your buggy in this area.

Area could be fenced off with white hoops to manage traffic around the area of concern.

Area could be fenced off with white hoops to manage traffic around the area of concern.

Conclusion

Areas of concern can be worked on to improve the use of a buggy around the course.
