

Medical Exemption – 5th Hole

Buggy restrictions – due to weather conditions buggies may not be permitted from time to time to preserve the course and uphold health and safety. **Exceptions may be made for medical reasons** provided a medical certificate, or equivalent, is produced either at the office or the pro shop. The Dyke Golf Club implement three severities on use of medical buggies. Course Severity (1) allows golfers with a medical exemption to play holes 10 & 9 ONLY. Course Severity (2) allows golfers with a medical exemption to play holes 10, 11, 7, 8 & 9 ONLY. Course Severity (3) allows golfers with medical exemption to play the whole course apart from 5th hole and they must tee off the 6th hole from the Blue tee.

The red line is prohibited for buggy use whilst course severity 1 is in use.

The green line shows the route you must adhere to after finishing the 4th hole. The blue square shows where the blue tee is on the 6th hole. You must play from this tee when playing the 6th.
