

Dundas Parks Golf Club

Due to the damage caused by animals on predominantly the hole 5 fairway, the following rule should be applied if your ball or stance is affected by the damage.

Rule 16 - Relief from Abnormal Course Conditions

DIAGRAM 16.1A: WHEN RELIEF IS ALLOWED FOR ABNORMAL COURSE CONDITION

- The diagram assumes the player is right-handed.
- Free relief is allowed for interference by an abnormal course condition (ACC), including an immovable obstruction, when the ball touches or lies in or on the condition (B1), or the condition interferes with the area of intended stance (B2) or swing.
- The nearest point of complete relief for B1 is P1, and is very close to the condition.
- For B2, the nearest point of complete relief is P2, and is farther from the condition as the stance has to be clear of the ACC.

(1) Meaning of Interference by Abnormal Course Condition. Interference exists when any one of these is true:

- The player's ball touches or is in or on an abnormal course condition,
- An abnormal course condition physically interferes with the player's area of intended stance or area of intended swing

If the abnormal course condition is close enough to distract the player but does not meet any of these requirements, there is no interference under this Rule.

Dundas Parks Golf Club

DIAGRAM 16.1B: FREE RELIEF FROM ABNORMAL COURSE CONDITION IN GENERAL AREA

- Free relief is allowed when the ball is in the general area and there is interference by an abnormal course condition.
- The nearest point of complete relief should be identified and a ball must be dropped in and come to rest in the relief area.
- The relief area is one club-length from the reference point, is not nearer to the hole than the reference point and must be in the general area.
- When taking relief, the player must take complete relief from all interference by the abnormal course condition.

Relief for Ball in General Area

If a player's ball is in the general area and there is interference by an abnormal course condition on the course, the player may take free relief by dropping the original ball or another ball in this relief area (see [Rule 14.3](#)):

- Reference Point: The nearest point of complete relief in the general area.
- Size of Relief Area Measured from Reference Point: One club-length, **but** with these limits:
- Limits on Location of Relief Area:
 - Must be in the general area,
 - Must not be nearer the hole than the reference point, and
 - There must be complete relief from all interference by the abnormal course condition.
