

# ADGC Multiple Tee Competitions

On **1<sup>st</sup> April 2024** significant changes were made to the WHS which included:

- An adjustment to the calculation of Course Handicaps referred to as **CR – Par**

This change to the WHS Handicap System means that a player who plays to their handicap, on **ANY** course, will now achieve a **Nett** score equivalent to the **Par** of the course or **36 Pts** (Stableford).

Player	Tee	Nett Score (Playing to Handicap)	Par	Stableford Pts
Men	White	71	71	36
Men	Yellow	71	71	36
Women	Red	73	73	36

## Stableford (and Par/Bogey) Competitions

Adjustments for using multiple tees in a competition using **Stableford** (including **Par/Bogey**) are no longer necessary since all players who play to their handicap should now achieve Nett Par or 36 Pts.

Tees Used	Points Difference	Adjustment
White / Red	Difference between 36 and 36 = 0	None
Yellow / Red	Difference between 36 and 36 = 0	None

## Strokeplay (including Matchplay formats)

Adjustments for using multiple tees in a competition using **Strokeplay** (including **Matchplay** formats) are now based on the **difference between the Pars of each course**.

Tees Used	Difference in Pars	Adjustment
White / Red	Difference between 71 and 73 = 2	Red + 2
Yellow / Red	Difference between 71 and 73 = 2	Red + 2

**Par Adjustments** for multiple tee competitions are added to the **Playing Handicap** with All players using their **own card** for **Stroke Indexes** and **Pars** (*except Greensomes and Foursomes*)

## ADGC Multi-Tee Adjustments – In Brief

	Stroke Play & Match Play	Stableford & Par/Bogey
White / Red	Red + 2	None
Yellow / Red	Red + 2	None
