## Newsletter – January 2020

### BRS Finance

We are currently awaiting the final terms and conditions from BRS and will circulate these to members as soon as they are received by the club

### New Lockers

The new lockers are almost finished and it is hoped to start allocating them by Monday 3rd February or even sooner if possible. Each occupant will receive a key and a list of locker rules from Claire in the office. I hope you agree that they were well worth waiting for.

#### Locker Rules:

The lockers must not be modified in anyway by the occupant.

The lock provided is the only lock allowed.

Subletting or sharing a locker is strictly prohibited.

Any damage to a locker will result in repair costs being charged to the occupant.

Any internal additions to a locker (ie hooks etc) must be sanctioned by the club secretary and the work carried out by a person appointed by the club. All repairs will be paid for by the key holder.

There is a key for each locker and if needed a spare key will be left in the office or bar. Lost keys will be replaced at the keyholders expense.

Under no circumstances should a locker be forced open.

Keep lockers clean and tidy and dry golf equipment before placing in the locker Lockers are solely for the storage of golf equipment.

### Vaping

By and large most members are adhering to the club rules re vaping which state. Only the smaller standard e cigarettes will be allowed.

Vaping will not be allowed within the confines of the bar (tiled area).

Members are asked to refrain from vaping in areas where food is being consumed.

Council asks that all those who vape adhere to these rules. This vaping policy will be reviewed monthly.
